

# MYMEX SHOW GUIDE

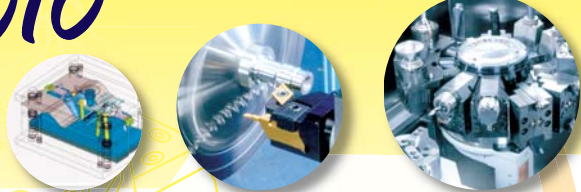

29 SEPT - 2 OCT 2010

Johor 2010

**PERSADA JOHOR**  
International Convention Centre  
Johor Bahru, Malaysia

Incorporating:  
**automEX**  
MALAYSIA'S AUTOMATION TECHNOLOGY EXHIBITION

## Largest Metalworking & Manufacturing Exhibition in Southern Malaysia

MYMEX JOHOR 2010, the largest Metalworking and Manufacturing Exhibition in the Southern Region of Malaysia returns to Persada International Convention Center from the 29th September to 2nd October 2010.

MYMEX JOHOR 2010 will gather more than 100 exhibiting companies who will be showcasing a wide array of latest machine tools, metalworking, automation and manufacturing solutions over 4,000 square meters of gross space.

Over the 4 day event, visitors from the manufacturing sector can take the opportunity to learn and source for new technologies, establish new business ties, strengthen existing ones and scale new heights in business growth. MYMEX JOHOR 2010 will continue to bring value added benefits to help spur the development of the nation's industrial and manufacturing sectors.

## MESSAGE

**PREMIER**

A very warm welcome to all exhibitors and visitors to the 3rd Edition of MYMEX 2010, Southern Malaysia's largest metalworking and manufacturing exhibition, incorporating Automex, Malaysia's Automation Technology exhibition.

As the global economy recovers, the demand for innovative machineries and equipment will begin to flourish. The timely organisation of MYMEX JOHOR 2010 is imperative to machinery and equipment vendors, manufacturers and end users.

Over the 4 day event, we hope the manufacturing sector will take this opportunity to establish new business ties, strengthen existing ones and scale new heights in business growth. I am confident that MYMEX JOHOR 2010 will bring value added benefits to help spur the development of the nation's industrial and manufacturing sectors.

MYMEX JOHOR 2010 is also strategically located in Iskandar Malaysia to leverage on the already growing business opportunities in the Southern Malaysian region. Consequently, the exhibition will also cater to the need of the manufacturing sectors in the Malaysia-Indonesia-Singapore Growth Triangle (MIS-GT).

We would like to take this opportunity to thank the Johor State Government, Johor State Investment Centre (JSIC), SME Association of South Johor and the Johor Foundry and Engineering Industries Association (JFEIA) for their unwavering support of MYMEX JOHOR 2010.

Also, the success of this event can only be contributed by the loyal and steadfast support of our exhibitors, media partners as well as trade visitors, who have made time in their busy schedule, to visit the exhibition. We would like to express our gratitude to them and strive to ensure that MYMEX will continue to meet their participating and visiting objectives.

I wish you fruitful days at MYMEX JOHOR 2010.

**DATU' ZAINAL ABIDIN BIN HAJI AHMAD**  
Chairman  
Premier Exhibition Services Sdn Bhd

**PREMIER**

Premier Exhibition Services Sdn Bhd is proud to return with the 3rd Edition of MYMEX JOHOR 2010!

For the third time, MYMEX JOHOR 2010 will continue to showcase a wide array of latest machine tools, metalworking, automation and manufacturing technologies and solutions under one roof. MYMEX is now billed as Southern Malaysia's largest metalworking and manufacturing exhibition, incorporating Automex, Malaysia's Automation Technology Exhibition.

MYMEX JOHOR 2010 will cover over 4,000 square meters of gross space with over 100 exhibiting companies, and is expected to attract over 5,000 trade visitors from around the region.

As a pivotal event held in Iskandar Malaysia, MYMEX is unrelenting in providing an effective and relevant trade event for exhibitors and visitors. Subsequently, we hope to provide the manufacturing sector the opportunity to source and learn about the latest technologies and solutions from overseas through this exhibition.

On behalf of the MYMEX team, I would like to take this opportunity to thank the Johor State Government, Johor State Investment Centre (JSIC), SME Association of South Johor and Johor Foundry and Engineering Industries Association (JFEIA). I would also like to express my deepest gratitude to all exhibitors and visitors for their relentless support for MYMEX JOHOR 2010

I wish you all every success.

**ALBERT LAI**  
Managing Director  
Premier Exhibition Services Sdn Bhd

We are honoured to pledge our support for MYMEX JOHOR 2010 for the third year in a row.

The objectives of the association are to advocate the interests and needs of members, as well as help promote and develop the small and medium enterprises in South Johor. Many of our members are located within Iskandar Malaysia, South Johor, a locale heavily concentrated with SMEs in product engineering and manufacturing technology sectors.

In this era of globalisation, we believe that our members must continuously innovate to remain at the forefront of competition. To sustain this momentum, it is of utmost importance that companies should aggressively adopt newer technological advancement and proactive marketing measures.

MYMEX provides an excellent conduit to do just that. The exhibition is an ideal platform to promote our members' business as it provides an opportunity for SMEs to be exposed to the international market and help them expand their business horizon.

MYMEX has grown over the years to provide the manufacturing sector with a platform to directly establish networking and forge a stronger collaboration towards enhancing their efficiencies and competitiveness.

I hope the SME sector will make full use of this annual event to continuously access business opportunities, gather market feedback as well as update themselves in market trends and technologies in order to be competitive in the global market.

I wish MYMEX JOHOR 2010 every success.

**TEH KEE SIN**  
President  
SME Association of South Johor

It is my pleasure to pen this brief message for MYMEX JOHOR 2010. We at the Johor Foundry and Engineering Industries Association (JFEIA) are proud to support this event.

I would like to congratulate Premier Exhibition Services Sdn Bhd for the successful and timely organisation of MYMEX JOHOR 2010. MYMEX JOHOR 2010 is an avenue for the foundry and engineering industries to source for the latest and largest range of machineries and equipment, all under one roof.

We believe that the exhibition will provide exhibitors and visitors alike with the most-up to date know-how on high performance and quality, optimised productivity and cost efficiency.

The continuation of the JFEIA pavilion in MYMEX JOHOR 2010 demonstrates our association commitment in assisting our members to leverage on the growing business opportunities in Iskandar Malaysia. The encouraging response from our members reflects upon their readiness and confidence towards the manufacturing industry to propel their businesses forward.

We look forward to welcome all visitors and exhibitors alike to our stand during MYMEX JOHOR 2010 to check out our members' showcases.

 SELANGOR, MALAYSIA.

NCM aspires to become a world-class machine tool manufacturer and integrator of turn-key machining solutions.

**Our Motto**

"Precision Solutions for Life"

**Our Mission**

To contribute towards nation building and achieve world-class status by providing complete factory automation and engineering solutions within the manufacturing sector and by performing work of outstanding value that exceed our customers' requirements.

NCM Global Sdn. Bhd. was originally founded as Nurivest CNC Mechanization Sdn. Bhd. in January, 2005 with the vision of complementing Malaysia's manufacturing Infrastructure. In April, 2008, the company re-established itself as NCM to reflect its international partnership presence and market penetration. NCM leverages 25 years of technological leadership via its pioneering principal's in machine tool building and CNC automation.

NCM is an approved pioneering status company, which is representative of both MITI (Ministry of International Trade and Industry) and MIDA (Malaysian Industrial Development Authority) for CNC Controller Assembly and CNC machine building. NCM is geared up to manufacture High Speed Vertical Milling and Lathe Machines and assembly of CNC Controllers via its OEM and contract-manufacturing venture with its multi-national principal business partners.
