

## Want to find out new and simple ways of reaching out to more customers?

Discover how something so small can make such a big, big impact on your business at the Microsoft Windows Small Business Server 2003 road show – *and we're bringing this to a town near you!*

Designed with your business needs in mind, Windows Small Business Server 2003 is a complete and affordable network solution for businesses up to 75 PCs. With it, you can have confidence that your data is secure, untap new productivity from your desktops, empower your employees to do more, and connect to your customers like never before. It provides many essential networking features used by large companies, but without the complexity.

Learn about these big business benefits:

- ✓ **File and Print** – Increase your productivity by sharing critical data faster and easier.
- ✓ **E-mail and Web** – Host your own e-mail, create a web presence and access business information remotely
- ✓ **Security** – Enables a highly secured network to protect your critical business data
- ✓ **Applications** – Supports the widest range of business ERP solutions readily to help you grow your business
