## About The Event

Malaysia International Industrial Machinery Expo (Johor 3P Expo) is the industry event for Plastic & Rubber, Packaging & Food processing, and Printing & Sign and Automation professionals in the region. This International Event is projected to bring together in 2012, more than 7000 industry professionals to address the strategic, operational and technology aspects of the 3P Industry in Johor and Singapore. The International character and regional audience of Johor 3P 2012 provides unparalleled marketing, education and networking opportunities.

Participate in Johor 3P 2012 to keep abreast with the industrial of today and the prospects of tommorow.

## Why Exhibit?

### Johor Attracts Highest Investment

Iskandar Malaysia will continue to prosper with a conducive business environment and better infrastructure following the RM 339 million allocation announced in Budget 2011.

Iskandar Regional Development Authority (IRDA) chief executive Ismail Ibrahim said the allocation was the right direction as Irda was overseeing various infrastructure developments, in line with its effort to enhance the business environment and provide quality life for the people.

### Opportunities in Iskandar

Iskandar Malaysia is set to become Southern Peninsular Malaysia's most developed region where living, entertainment, environment and business seamlessly converge within a bustling and vibrant metropolis.

The first of its kind, Iskandar Malaysia has been allocated RM6.83 billion by the Government. Encompassing a vast acreage of land, it is the largest single development project ever to be undertaken in the region.

## Proven Trade Record

Once again, Johor 3P Expo was rated as Southern's top industrial machinery event by industrial experts raking in more than RM50 Million in machinery sales and making headlines with more than 7,000 visitors at its inaugural event in 2011 (\*The targets number of visitors so far an industrial event in Johor).
