To "All Our Valued Customers and Business Partners"

Dear Sir/Madam,

An Official Invitation ; Forum on Preparedness of Manufacturing & Services Sectors towards Green Market, March 2013

Greetings from SIRIM Johor !

Green Technology is a new innovative approach in enhancing sustainability, to overcome environmental degradation and natural resources, improve health and lives, protect ecosystems. The positive impact of this approach is a great cost savings realized by the government at the same time boosting government efforts to mitigate the impact of social and economic development.

Government is consistently focus it's important role to promote the development of green technology activities by introducing various incentives; such as providing an income tax exemption for building owners who have been certified by GBI from 24th October 2009 to 31st December 2014, duty stamp exemption on documents of transfer for homebuyers who had received the GBI certificate from the developer property. This exemption is qualified for buyers who have completed the sale and purchase of agreement from 24th October 2009 to 31st December 2014.

In conjunction with this, it is a great pleasure for SIRIM under SIRIM-KeTTHA project to have a forum on Preparedness of Manufacturing and Service Sectors towards Green Market as the following details:

Date: 13 March 2013 (Wednesday)
Time: 8.30 am- 1.00 pm
